5/9/17	Bias incident form #1116564 received by EOO at 11:10 am.							
5/11/17	L.K. Langley t/c with		Langley t/c to yet using or she/her pronouns in her work environment) walked in to the meeting when in was starting and heard people laughing at a joke about preferred pronouns and the student at UM who indicated their pronoun as "His Majesty." She was the last to come in to the meeting and didn't hear what led up to the joke. If felt like she should speak up but couldn't. She is trans and is not yet out at work; she feels that there was an assumption by others in the meeting that there were not trans people in the meeting. If felt the joke was not appropriate and that it was counter to staff's responsibility to work to protect and provide safe environments for transgender students. The meets monthly to keep functional areas up to date about what's happening is the person who made the joke.

5/25/17	t/c to Langley.	Langley discussed the concern with and suggested providing training to the group. does not think the group is at all hostile to supporting trans students; she thinks the joke and conversation were about how to make sure people don't abuse a system that is put in place. She has some concern about requiring people she doesn't supervise to do training and staff wondering where it is coming from. Langley and discussed framing it as a discussion rather than a training; giving people some broader social context can help them understand the importance of the related work they are doing.
		Agendas are very full given number of projects going on. Langley requested half an hour and proposed extending the length of a meeting. 20 minutes could work, but not less. will find a way to fit it into the June or July meeting and will be in touch with Langley in early June.
